01

What ?

Online instructing is the active facilitation of learning in a virtual environment. It goes beyond delivering information by leveraging digital tools, interactive strategies, and continuous feedback to ensure understanding and skill development.

Let's talk about pillars of Online Instructing

1. Instructional & Cognitive Architecture

- Learning objectives are clear and measurable. → **(Why ?)**
- Activities directly support those objectives.
- Assessments truly measure learning outcomes

Without that alignment, online presenting becomes content broadcasting rather than learning engineering.

Cont.

pillars of Online Instructing

2. Technological & Delivery Infrastructure

- Where I perform the session ?
- What 's the Visuals ?
- How to make my enviroment flexible,
accessible and much comfort?

Cont.

pillars of Online Instructing

3. Human & Motivational Presence

- Connect & Belonging
- Guidance & Support
- Motivation & Meaning

So we conclude that

Online Instructing is a group of skills →
(presenting, teaching, technical and mental),
integrated with instructional design and digital tools to
effectively teach, engage, impact, and motivate learners in a
virtual environment.

02 Mastering Tools

Tools are what help you to be good Instructor **BUT** NOT what make you good instructor
(read again)

Ex. Tools

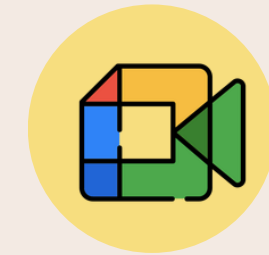

Zoom

recording & meeting app
for online session & screen
recording

OBS

Recording & Streaming app

Google Meet

very good for online
meetings

One note

Whiteboard powered by
Microsoft with easy use

Figma

Whiteboard & design app used
for ordinary writing and
powerful design

Excali

Powerful whiteboard for use
with more features

More Tools ?

There is more whiteboard the could be easy and good to use like **Concept** & **Microsoft whiteboard**

As there is tools for handling or editing videos like **Audacity** for increasing & editing the Volume, **Davinci Resolve** & **Capcut** for montaging & video editing

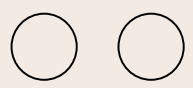

Strategies & Tips

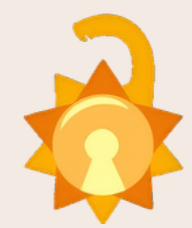

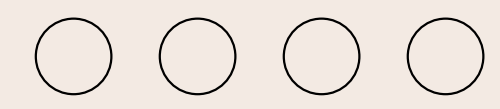

Strategies & Tips

1. Be Brief (not always)
2. Be Simple
3. Be Prepared
4. Be Specific
5. Be a TV Personality
(& don't forget the recap)
